Every effort has been made to avoid errors and omissions. The format of the 1988 edition was changed from MS/DOS format to MS/WORD format. This was done electronically in most cases but there may still be a few items that the computer nor the editor did not catch in the process. If any errors are discovered it would be greatly appreciated if notice would be forwarded to the editor of this index so that the next edition will not have them. E-mail address: [irisgirl@attbi.com](mailto:irisgirl@attbi.com). Thank you.
