NOTES

60-96 Judean Bonnet x Austin W157-O, yellow
Was this an Austin seed?

Austin 157-1
thru
Austin 157-6 Not same as W157-O series

Austin W203 In Jonnye Rich's copy of Austin records, which she transcribed herself from Austin's original records, there is a section named: "NO CROP YEAR ASSIGNED". In it there is a **203** listed. It is the only **203** listed in his records. Could this be the same as W203 listed in Shockey's crosses? If so, that pedigree is shown below:

203: (Austin: ((WO6-22 x Imaret) x Kerr 55-1-O (*I. lortetii* x Kerr 56-11A: (Kerr 47-18: (Austin W182: ('Charon' x Kerr 47-3: (Austin H16: (*I. auranitica* x 'Teucros')))) x *I. gatesii*)) x Kerr 55-14-O: (Kerr 47-14: (Austin Mx7-O: (*I. susiana* x *I. gatesii*) x *I. nazarena*)) X ((*I. lortetii* x *I. auranitica*) x Austin Mx7-O: (*I. susiana* x *I. gatesii*))

This compilation would not have been possible without the records that Cindy Rivera, of the ASI Archives, readily made available to us. If others have valid Shockey seedling pedigrees please share it with us so we can update this file. They may send any data to Francesca Thoolen: arilpums@comcast.net
