

# WELCOME TO THE PLANT SALE

## 2025

There are **155** cultivars listed this year and more than **1,200** plants available.

Most cultivars have 3 or more plants for sale, but a few have less, so you might want to decide quickly.

There is one 2025 introduction from Howie Dash. The photo adorns the back cover of this newsletter.

There are also over 17 cultivars new to the sale or that haven't been in the sale for the last few years.

You can help us maintain accuracy of the sale plants. When you get your plants, please record them and the year you got them. If any bloom incorrectly, let the Plant Sale Chair know so the donor can be contacted for possible identification. Our donors try hard to assure correctness, and appreciate being notified when errors occur. Mistakes happen: while labeling, rhizomes go wandering from their clump, stock was misnamed when acquired by the donor... the list goes on.

A BIG THANK YOU goes out to this year's donors:
